

# PS260

## Description

CATV power supply adopted the flexible and stretchable high silicon steel sheet of ring transformer with wide capability, high efficiency, noiseless, net sine wave output and has automatic constant voltage, short-circuit protection and anti-thunder circuit. It's a desirable power equipment of big and medium-sized CATV system.

## Feature

- ◆ Ranging from 3Amps to 15Amps
- ◆ High power round transformer
- ◆ Low work noise
- ◆ Device infixed to prevent front thunder and over voltage

## Electrical performance

Item	Unit	Parameter
Frequency	MHZ	46-860
Input voltage	AC	220V±10%
Output voltage	AC	60V ± 10%
Fix Output Current	A	3-15
Insert loss	DB	≤1.5(5-1000MHz)
Return loss	DB	≥16
Dimensions	S	10-30
Net Weight	S	2-10
Max output current		Sum of all output current must be under the MAX current
Hum Signal Ratio	%	≥66
Dimensions	CM	27.5*18*13.5
Weight	KGS	7.5
